I am of opinion that it is highly desirable to extend the scholarship of Devi Dyal by three months from 1st Feb 1913 to enable him to complete his studies. As per figures furnished by him, we need £50 for scholarship, £30 for travelling expenses and £50 (about) for purchase of certain instruments or a total of £130 Out of the lump sum provision of Rs 3000 in the current Budget, deduct £150 required for the Kailas

the June next, there remain £50 the balance of £80 (or Rs 1200) may be met out of the closing balance of Rs 5951 if the cost of instruments (£50) is not to be spent, then the amount to be realized from the closing balance will only be Rs 450 (£30). Considering that the student has done well and completed his course, I think it to me that the cost of instrument may also be paid, as he may not have funds of his own to purchase them, or may not be able to procure readily

1st Oct 1912 the student Doc

along this line to pathology, histology and bacteriology of the eye. Now that I am free from examinations I am in a position to devote myself specially to this branch of study. As a Clinical Assistantship the Eye Klinik in Vienna is not obtainable for a period of less than six months the whole of the remaining term of my Scholarship will have to be spent in Vienna especially in view of the fact that securing a Clinical Assistantship is the only way to get proper opportunity for work for histology and pathology of the eye. Vienna offers good scope but for bacteriology one has to go elsewhere and the best place to go to is Freiburg where one gets the chance of working under Prof. Axenfeld the greatest living authority on bacteriology of the eye. After finishing my work in Vienna I intend to go to Freiburg to work in the bacteriological laboratory there. If I get the chance I should very much like to learn micro-photography as

well It would be very worthwhile paying a visit to the Klinik of Prof Haab at Zurich and I should be very glad of the opportunity to do so

So that I may go through the above programme of work approved and recommended by Prof Schafer and make good the Stipulation of the Government of Mysore that I should do special work in microscopy I may say that the Government may be pleased to extend my Scholarship for a period of three months after the expiry of its present term, to provide me with a suitable microscope and apparatus for microphotography and to make me a grant of £30 (thirty) to defray my travelling expenses

On hearing of my success in the D O Examination and on being consulted in accordance with the instructions of the Government with regard to special work in microscopy Prof Schafer has been pleased to send me his letter of approval and commen

dation of my further programme of work and of his good opinion of my record hitherto, to be forwarded to the Government of Mysore, which I enclose herewith along with the testimonial of the Dean of the Royal London Ophthalmic Hospital

In view of the fact that the shortness of the period that still remains of my Scholarship and the urgency and indispensableness of the requirements do not permit of prolonged deliberation I further pray that the Government may be pleased to communicate to me their prompt and favourable decision in the matter, if possible by, if not before, the end of next month I may mention that the term of my current Scholarship expires at the end of January 1913

I beg to enclose herewith a copy of the Diploma in Ophthalmology granted to me by the University of Oxford.

In grateful anticipation of an early and favourable reply I remain

Sir

8th August 1912 Your humble petitioner

H Gan

c/o Messrs Coutts & Co Bankers,
440, Strand London W C

P S Probably the microscope and the apparatus for microphotography would cost £50 As I am not just now in a position to quote the exact price I beg to suggest that it would be best to instruct Messrs Coutts & Co to pay the bill for the instruments in case the Government is pleased to grant me the outfit
